### POSSESSION OF PASS COVETED

By Japanese for Strategic Purposes.  
Alexieff Shares Blame—The  
Day's War News.

MUKDEN, SEPT. 22.—(Bulletin)—  
A BATTLE IS EXPECTED HOURLY  
IN THE VICINITY OF FUSHUN, 30  
MILES EAST OF MUKDEN.

St. Petersburg, Sept. 22.—The war  
officials are not depressed by reports  
current abroad that General Kuropat-  
kin's position at Mukden is threatened,  
and it is not intimated that a sur-  
prise is in store for the mobile Japs.  
Because of the belief in the outcome  
of the coming clash that probably  
will mark the close of active opera-  
tions for the winter, plans are being  
pushed here for a more active and  
comprehensive campaign in the spring.  
Within a short time Gen. Kaubars  
will have a personal interview with  
the czar preparatory to his departure  
for Manchuria and it is confidently  
expected that he will carry with him  
certain orders that will renew the  
confidence of the battle-worn troops  
at this front. Three thousand a day is  
the rate at which fresh soldiers are  
being sent eastward and this number  
will be increased, as soon as the  
lake Raikal difficulties have been sur-  
mounted and the railway around that  
body of water is completed.

St. Petersburg, Sept. 22.—All that  
seems to be definitely established is  
that Oyama is again essaying to flank  
General Kuropatkin from the east.  
His advance forces are seeking to ob-  
tain command of the roads leading 20  
to 30 miles east of Mukden, and ac-  
cordingly they attempted to seize Da  
pass, on the road to Fushun, in order  
to turn the Russian left, but they  
were repulsed.

It is fully appreciated here that the  
Japanese must try for the possession  
of Mukden, as otherwise it will be  
difficult for them to provide the army  
with winter quarters. Liao Yang does  
not afford sufficient accommodations,  
although many houses there escaped  
destruction in the recent battle. Mov-  
able huts are quite unsuitable for the  
housing of Japanese owing to the se-  
verity of the climate. The average  
winter temperature there is 40 de-  
grees below zero, and the cold is in-  
tensified by continual winds and an  
almost entire absence of snow. In  
spite of this, however, the campaign  
probably will continue during the win-  
ter if the Japanese succeed in getting  
into Mukden. In this contingency  
General Kuropatkin for various reasons  
will not be likely to allow the  
Japanese to remain in undisturbed  
possession of the point, which is im-  
portant not only from a strategic but  
the political point of view.

The movements in the north are still  
of a tentative and preparatory char-  
acter on both sides, which have not yet  
crystallized into a definite clash of  
forces at any one point. A resump-  
tion of the Japanese advance is now  
expected to occur any day. It is the  
third week since the fighting at Liao  
Yang, and the Japanese have had time  
to transport reinforcements from Yin-  
kow and bring up sufficient men to  
the front to replace their losses, but  
it is not improbable that several days  
will intervene before the armies come  
to close quarters. The interval is  
being devoted on both sides to feeling  
out the strength and disposition of  
the opposing forces. The Japanese prob-  
ably will attempt to capture the  
passes of the Da mountain range, run-  
ning half way between the Hun and  
the Taitee rivers. The possession of  
these passes is important for the Jap-  
anese, as it will not only enable them  
to march northward, but also screen  
the movements of their troops from  
the prying gaze of Russian scouts.

The situation at Port Arthur is un-  
known here, although it is believed  
that important events are taking place  
there.

Alexieff Shares Blame.  
Berlin, Sept. 22.—A dispatch from  
St. Petersburg to the Tageblatt, ap-  
parently prompted by the Russian war  
department, puts the blame for Gen-  
eral Orloff's failure to hold the Yental  
pass equally on Vicoray Alexieff

and General Orloff. The correspon-  
dent says: "Alexieff detained Orloff  
on trivial pretexts, so that he reached  
the mines at noon on Sept. 1 wholly  
uninformed as to the situation. Gen-  
eral Samsonoff transmitted to him  
General Kuropatkin's strict order to  
hold the mines at all costs, but when  
Orloff heard the cannonading in the  
direction of Sykwanun he marched  
toward that place, leaving Samsonoff  
alone to hold the mines. General Ku-  
ropatkin fell upon the left flank half an  
hour afterward. Orloff was not pos-  
sessed of a single cavalryman, and  
was completely surprised. His troops,  
composed mainly of reservists, who  
had been long out of the service, were  
uncontrollable and broke, going in the  
direction of Yental instead of back to  
the mines. General Kuropatkin per-  
sonally led the first Siberian corps to  
the support of the hard-pressed  
Samsonoff."

Must Remain at Shanghai.  
Shanghai, Sept. 22.—It has finally  
been arranged that the crews of the  
Russian cruiser Askold and the tor-  
pedo-boat destroyer Grozovoi, which  
took refuge here after the naval battle  
off Port Arthur Aug. 10, and which  
subsequently dismantled, shall remain  
on board their vessels. They will be  
granted occasional shore leave.

Japanese Attack Da Pass.  
Berlin, Sept. 22.—A dispatch from  
Mukden to the Lokal Anzeiger says:  
"The Japanese on Tuesday attacked  
Da pass, 50 miles southeast of Muk-  
den, with what result is not known.  
The Red Cross institutions are mak-  
ing ready for general engagements."

May Make a Dash.  
Shanghai, Sept. 22.—A Chinese who  
left Port Arthur last Monday reports  
that, owing to the incessant bombard-  
ment of the harbor by the Japanese,  
the Russian fleet is determined to  
break out this week and endeavor to  
reach Tsingtau.

Want to Sell Manchurian Road.  
London, Sept. 22.—The Morning  
Post's Shanghai correspondent tele-  
graphs that native newspapers assert  
that Paul Lessar, Russian minister at  
Peking, demand that China shall pur-  
chase the Manchurian railroad.

## PHOTOGRAPHY

A German Has Discovered a Method  
of Photographing Colors at  
Small Cost.

Berlin, Sept. 22.—Dr. Koenig  
Joachimsthal, has discovered a method  
of color photography which will se-  
cure the exact reproduction of all col-  
ors. The process is as simple as or-  
dinary photography and will not cost  
amateurs much more than the ordi-  
nary work. Experts assert that the dis-  
covery is one of epoch making impor-  
tance.

### Parker in New York.

New York, Sept. 22.—Judge Alton B.  
Parker, accompanied by Arthur Mc-  
Causland, his private secretary, ar-  
rived at the Hoffman house this morn-  
ing. He came as before, to hold con-  
ferences with personal and political  
friends. Judge Parker secured David  
B. Hill's suite of rooms in the Hoffman  
house, and will remain at the hotel un-  
til tomorrow evening, when he will re-  
turn to Saratoga. John B. Stanchfield,  
of Elmira, and Perry Belmont were  
among the early callers at the hotel.  
Mr. Stanchfield said that no sore spots  
remain as the result of yesterday's ac-  
tion of the Democratic state conven-  
tion at Saratoga. He praised the  
ticket named and declared it would  
prove a winner.

### He Won at Last.

Springfield, O., Sept. 22.—Because  
his offer of marriage was refused by  
Miss Anna Orr, who declared that she  
would wed only a minister of the gos-  
pel, Robert Wilson, a grocer's clerk,  
threw aside his apron, worked his way  
through college and graduated from  
McCormick Theological seminary at  
Chicago. He is now settled as the  
pastor of a Presbyterian church in  
Michigan, and they were married at  
the bride's home in Cedarville.

### Appointed by Dowie.

Waukegan, Ill., Sept. 22.—"Apostle"  
Dowie has appointed Judge Barnes  
and Leacon Sloan teachers in Zion  
City, a new office, believed to be a  
step toward their appointment as  
apostles.

### TWO BROTHERS

And Members of a Baptizing Party  
Stricken by Lightning.  
Petersburg, Ind., Sept. 22.—During  
an electrical and rain storm yester-  
day afternoon lightning struck the  
Methodist church in Spearport. Two  
brothers, Rev. John and ex-County  
Treasurer Jackson Ferguson, who had  
taken refuge in the building, were  
rendered unconscious.

A baptizing was being held in the  
Baptist church across the street,  
and several persons were knocked  
down by the shock.  
The residence and two barns of Wil-  
liam Ridge, 390 yards east, were set  
on fire and destroyed, with a loss of  
\$2,000.

### DEMOCRATS OF NEW YORK IN A SOLID COLUMN

### New and Powerful Impulse to Parker Candidacy.

### FIGHT AGAINST JUDGE PARKER

Because Tammany Recognized Union  
Label, One Concern Will Spend  
Hundred Thousand Dollars.

Columbus, O., Sept. 22.—John R.  
McLean, national committeeman from  
Ohio, is to preside as chairman of  
the meeting at the Democratic state  
campaign opening at Lima, October 1.  
State Chairman Garber has invited  
Mr. McLean, who has accepted tentat-  
ively, his presence depending upon  
his ability to leave Washington.

Efforts of the Democratic state  
committee to induce Senator Davis to  
attend the state opening have failed.  
Chairman Garber, however, was able  
to announce that former Senator  
Charles A. Towne has agreed to come.  
In addition it is expected General  
James B. Weaver of Iowa, one time  
Populist candidate for president, will  
accept the invitation extended to him.  
General Weaver carried several  
Western states in the presidential  
election of 1892.

## NEW YORK

Democracy is Marching to Political  
Battlefield in Solid Column—What  
the Herald Says.

New York, Sept. 22.—Concerning the  
nomination of Judge D. Cady Herrick,  
the Herald today says:

New York's Democracy came out of  
its encampment in solid column and  
took up a position at the front of the  
great presidential battlefield. The  
enthusiastic and unanimous nomina-  
tion at Saratoga by the united Demo-  
cracy, in its free and open conven-  
tion, will not only enliven the torpid na-  
tional campaign, but will give a new  
and powerful impulse to Judge Park-  
er's candidacy.

"For very many months the claims  
of Mr. Roosevelt have been systemat-  
ically pressed upon the public in sea-  
son and out of season, with the utmost  
assiduity and wearisome pertinacity,  
by his partisan supporters. Until  
very recently at least the campaign of  
Judge Parker has been so tardily ad-  
vanced that its real promise has not  
yet been regarded as fully opened, since  
his formal letter of acceptance has  
not been published. But now that  
the Democracy of this great state has  
plunged into the presidential contest  
with tremendous earnestness and  
unanimity under peculiar conditions,  
which bid fair to immensely strength-  
en the Democratic nominee's chances,  
for carrying New York there is no rea-  
son to feel that the most momentous  
election in our national history will  
go by default under the withering in-  
fluence of public apathy."

## OPENING

Of Campaign in West Virginia—Senators  
Davis, Towne and Others  
Make Speeches.

Wheeling, Sept. 22.—Democrats  
from many districts of the state are  
flocking to Wheeling to attend Henry  
G. Davis' meeting this evening, when  
the vice presidential candidate will  
fire the opening gun of the campaign  
in West Virginia. He will speak on  
national issues and his remarks on  
this occasion being the first of purely  
a political nature, delivered in his  
home state since his nomination, will  
be regarded as doubly significant.  
Following Senator Davis, speeches will  
be made by ex-Senator Charles  
A. Towne and Col. John T. McGraw.

## GIRL IMAGINED SHE SWALLOWED CARBOLIC ACID

### And Died From Effect of the Fright.

This is the Theory of Coroner Murphy  
of Columbus in Mrs. Herritt  
Case.

Columbus, O., Sept. 22.—With her  
real person still intact but believing  
she had swallowed it, Belle Summer-  
ville Herritt, a young school teacher  
of this city, died from the effects of  
pure imagination. This is the only  
plausible theory Coroner Murphy could  
advance today after an investigation.

Miss Herritt was out walking with  
her brother last evening. She was no-  
ticed to quickly drink the contents of  
a small bottle and throw the bottle  
away. Immediately she appealed to  
her brother to take her to a doctor.  
She said she had taken carbolic acid  
but this brought her to her senses and  
she wanted to be saved. Quick work  
of physicians disclosed she had taken  
no poison but a harmless medicine  
and the carbolic acid was found in a  
bottle in another pocket.

## ANDREWS

### Recently Paroled Will Pay Those Who Lost Their Money.

Detroit, Mich., Sept. 22.—Frank An-  
drews, the famous Michigan bank  
wrecker, recently paroled, says he is  
making a fortune in Wall street and  
today inserted in all the Detroit pa-  
pers a half page advertisement giving  
the names of 400 depositors on the  
wrecked city savings bank and stating  
that on receipt of statements from per-  
sons named with proof of amounts  
they lost he would repay them. The  
persons named mostly lost small  
amounts and many of them agreed to  
Andrews' parole recently.

## BRYAN

### To Speak in Newark, Tiffin and Hamilton in October.

Columbus, O., Sept. 22.—State Chair-  
man Garber announces that William  
Jennings Bryan will make three  
speeches in Ohio in the latter part of  
October for Parker and Davis. Mr.  
Parker says that Mr. Bryan is likely  
to be assigned to speak at Newark,  
Tiffin and Hamilton.

## ATTEMPT

### Made on the Life of Don Carlos the Spanish Pretender.

Venice, Sept. 22.—An attempt was  
made on the life of Don Carlos, the  
Spanish pretender, this morning. Don  
Carlos was taking his usual morning  
stroll, when an unknown man fired a  
pistol at him. The bullet missed its  
mark. The would-be assassin escaped.

## FIRE

Cigna buildings were destroyed. The  
loss is estimated at \$75,000. The town  
has no fire protection except hand  
pumps.

### Leave Oyster Bay.

Oyster Bay, N. Y., Sept. 22.—The  
President and Mrs. Roosevelt and their  
party left Oyster Bay for Washington  
at 9 o'clock this morning aboard the  
vacht Sylph. They will go as far as  
Jersey City by rail. At that point  
they will board a special Transylvania  
railroad train which is due to leave at  
1:01 and if the schedule is maintained  
they will arrive at the national capitol  
at 6:15 p. m.

### Lady Curzon's Condition.

London, Sept. 22.—There was no

pondent the following message: "Lady  
Curzon's condition is serious."

## FEUD

### In Breathitt County is Recalled

### WARRANT IS ISSUED FOR THE ARREST OF BRITTON

### Charged With the Murder of James Britton.

### STARTLING SEQUEL TO STRIFE

Revealed When Witnesses Appeared  
in Court and Secured Warrant  
for Britton's Arrest

Lexington, Ky., Sept. 22.—The feudal  
troubles of Breathitt county, and  
which for a brief season startled the  
civilized world, have at last found  
their way into the courts with the re-  
sult that a bench warrant has been  
issued by the Circuit court of Fayette  
county based upon an indictment  
found by the grand jury which charges  
William Britton of Jackson with the  
murder of James Cockrill, which oc-  
curred more than two years ago.

The warrant is now in the hands of  
the Breathitt county officers and back-  
ed by a strong posse. This is by far  
the most sensational phase of the  
feud troubles as it is darkly hinted  
that the testimony already adduced  
may lead to other and equally impor-  
tant arrests in the same connection.

Yesterday Floyd Byrd, the well-  
known prosecutor of Curtis Jett and  
Tom White, formerly Commonwealth's  
Attorney of Breathitt, accompanied by  
Sam Jett of Winchester, an uncle of  
Curtis Jett, and a half dozen witnesses  
from Breathitt county, presented  
themselves before the grand jury of  
this county, which is now in session,  
and asked to be given a hearing. At-  
torney Byrd made known his object,  
but the grand jury demurred, being in  
doubt about having jurisdiction in the  
case. Attorney Byrd thereupon quoted  
the statute, which provides that  
any case which has its origin in one  
county and its culmination in another  
county, either county shall have juris-  
diction thereof, and upon this the  
grand jury proceeded to hear the tes-  
timony of the witnesses, whom At-  
torney Byrd had brought with him.  
Upon the testimony an indictment  
was returned against William Britton,  
as above stated, and the warrant for  
his arrest issued. This warrant was  
placed in the hands of an officer, and  
the party proceeded toward its execu-  
tion.

On the way to Jackson a stop was  
made at Winchester, and the services  
of Woodson McChord, sheriff of Clark  
county, and who arrested Curtis Jett,  
secured, and he proceeded with them.  
Upon reaching Tarent, the entire  
party alighted and started across coun-  
try for Campton, Wolf county, where  
a posse was made up, headed for Jack-  
son.

In his efforts to get before the grand  
jury of this county, Attorney Byrd  
stated that he had tried to get this  
case before the grand juries of Breath-  
itt county, but that he had failed, and  
he now took advantage of the law to  
bring the murderers of Jim Cockrill  
to justice.

Cockrill was killed in April, 1902,  
by some person unknown at the time.  
The shot was fired from the cupola  
of the court house at Jackson. Cock-  
rill fell, mortally wounded, and was  
brought to this city, where he died  
two days later in the hospital. The  
body was taken back to Jackson for  
burial. At the time of his death  
Cockrill was the town marshal of  
Jackson, and the brutality of the  
crime sent a thrill of horror through-  
out the state.

The origin of this feud began with  
the killing of Ben Hargis by Tom  
Cockrill, a younger brother of James  
Cockrill, during a quarrel over a woman.  
This quarrel took place in Scott's saloon.  
Tom Cockrill was arrested, and after  
spending several months in jail he was  
released by a jury trial and set at  
large. While Tom Cockrill was in  
jail Lee Cox, the guardian of the  
Cockrill heirs, was shot and killed  
from ambush one night and no clue  
so far as is known was ever obtained  
as to the perpetrator of the crime. A  
few weeks later James Cockrill was  
shot and from this the feud continued  
with killings on both sides.

The strangest circumstance in con-  
nection with the indictment now re-  
turned against William Britton is the  
fact that Curtis Jett was tried for this  
crime before Judge Osborne, in the  
Harrison Circuit court, and was given  
the death penalty. His case is now be-

night passed a comfortable night and  
are doing as well as could be expected.

being cared for at the two hospitals.  
Nine people are dead as a result of  
the accident. In addition to the list

## HER SIGHT

Restored After Years of Darkness—A  
Miracle of Joy Restored the  
Woman's Sight.

New Orleans, La., Sept. 22.—Mrs.  
Sophia Fabian of 227 North Anthony  
street, New Orleans, now sees the  
light, after four years of total dark-  
ness and nine years of darkening twi-  
light.

A miracle of joy restored her sight  
Her youngest son, Henry Fabian,  
whom she had not seen for 18 years,  
surprised her by returning home last  
week. He came suddenly into the  
presence of his mother, who was sit-  
ting all alone in the darkness, and  
spoke her name.

At the sound of the voice of her  
son, whom she had never hoped to  
see or whose voice she never expected  
to hear again, the scales of darkness  
fell from Mrs. Fabian's eyes.

Mrs. Fabian is 76 years of age.  
Not the least wonderful part of the  
story is that 20 minutes before her  
son appeared Mrs. Fabian declared she  
had seen him plainly, a premonition  
of his coming forcing itself upon her  
mind.

His elder brother, John Fabian, at  
whose home the mother was at the  
time, while coming home in the cars,  
was accosted by a number of his ac-  
quaintances asking for news of her,  
of whom no one had spoken to him  
for years back.

the plate connecting his engine with  
the tender this morning, the coupling  
hook beneath him striking the en-  
gine to jump about, Wright fell be-  
neath the wheel and was terribly  
mangled, dying three hours later. His  
home was at Bellefontaine, O.

be held in the Ohio State Building,  
Troup A, at Cleveland, will accompany  
the Governor and participate in the  
parade. It is expected that the Phil-

United States troops will also partici-

Melrose, Mass., Sept. 22.—An out-  
ward bound electric car containing 32  
persons was blown to pieces in this  
city last night by striking a 50-pound  
box of dynamite that had fallen off an  
express wagon. Six persons were  
killed outright and three more died of  
their injuries within an hour. Nine-  
teen others on the car were taken to  
the two hospitals suffering from se-  
vere injuries. At least a score of per-  
sons in the immediate vicinity of the  
explosion were hurt by flying glass and  
splinters.

The following dead have been iden-  
tified: Dr. Malcolm McLennan, Mel-  
rose Highlands; E. B. Haynes, Mel-  
rose; Winfield Rowe, Saugus, Mass.,  
motorman; E. A. Stowe, South Boston;  
Fred D. Marshall, Boston. The  
unidentified dead were three women  
and a three-year-old girl.

Injured: Edward A. Waterhouse of  
Melrose had a foot amputated and was  
otherwise badly injured; D. Perry of  
Wakefield had both legs broken; Mrs.  
John Conway of Melrose had both  
legs broken; George H. Andrews of  
Melrose received a compound fracture  
of the left leg and his foot also was  
amputated. All of these are likely to  
die.

So great was the force of the explosion  
that all but 10 feet of the rear  
portion of the car was blown into

## MR. FAIRBANKS IN HIS LETTER OF ACCEPTANCE

**Gives His Views on the Questions at Issue.**  
Vice Presidential Candidate Formally Replies to Chairman Elihu Root's Communication.

Indianapolis, Ind., Sept. 22. — Hon. Charles W. Fairbanks, in a letter accepting the Republican nomination for vice president, avails himself of the opportunity to set forth his views with respect to questions in issue before the nation. The communication is addressed to Hon. Elihu Root, chairman of the notification committee. Mr. Fairbanks says in part:  
In accordance with the promise made when you formally notified me of my nomination for vice president, I avail myself of this opportunity to submit to you, and through you, to my fellow citizens, some further views with respect to the questions in issue before the people. The principles which are so frankly and felicitously expressed in the platform adopted by the Republican national convention meet with my heartiest approval. In the main they have been subjected to the test of actual experience and have been found to be well suited to our industrial and national needs.

The foreign policy of the administration has been conservative, just and firm, and has made for the advancement of peace. Thirty treaties have been concluded and proclaimed and stand to the credit of the administration. Some of these are of far-reaching importance. Among the number are the Hay-Pauncefote treaty, superseding the Clayton-Bulwer convention, which stands in the way of the construction of the isthmian canal, the Panama canal treaty, the Alaskan boundary treaty, and commercial treaties with China and with Cuba. Events in the far east suggest the wisdom and necessity of a continuance of the present foreign policy. We have maintained exact neutrality between Russia and Japan. At the beginning of the war between them they assented to the suggestion made by the administration, limiting the zone of hostilities. This tends to preserve the open door in the orient.

**Tariff and Trusts.**  
The convention wisely declared in favor of "protection which guards and develops our industries." It is a measure of protection should always at least equal the difference in the cost of production at home and abroad. This principle has been incorporated into the public law and has become the foundation of our industrial system. It has been regarded by the Republican party as a reasonable and appropriate exercise of the legislative power when imposing duties upon imports to discriminate in favor of American industries. A revision of duties should be made when conditions have so changed that the public interest demands their alteration, and they should be so revised as to preserve and not destroy the protective principle. Commercial reciprocity with foreign countries "consistent with the principles of protection," has long been one of the well recognized policies of the Republican party. The present administration, in the face of serious Democratic opposition, secured a treaty of reciprocity with Cuba, which provides to give us control of a large share of the commerce of that island.

The administration has enforced the Sherman anti-trust act, which was of Republican origin, in cases where combinations have been formed in violation of its provisions. The law, which was regarded as ineffective by a Democratic administration, has been invoked by the present administration in restraint of wholesome commerce, and it has been upheld by the courts. The money question has seemed to be settled at various times, but the contest has been revived by the enemies of sound money whenever they have thought that they might be successful. We should not relax our vigilance in upholding the integrity of our currency so long as a considerable element of our country are at war with it. When Democratic candidates can not hope to win preferment in a national convention without industriously concealing their monetary views, and when Democratic national and state conventions dare not declare their faith in the virtue of the gold standard, the hour has not arrived when the forces of sound money should disband and leave the field. We not only established the gold standard, but we provided such safeguards as will maintain our silver and paper currency at a parity with it.

**The Philippines.**  
When the insurrection occurred upon the isthmus of Panama, the president safeguarded American interests. He acted promptly but deliberately; prudently, not rashly, firmly, not unlawfully. He usurped no authority. He only exercised executive power which is clearly vested in him by the constitution, and which his predecessors had employed under similar circumstances. If he had failed to appreciate our rights, or to act firmly and promptly, blood would have been sacrificed, and the construction of the canal would have been indefinitely delayed.

The administration in the Philippines has been dictated by a broad sense of duty. It has not been subversive of our national ideals, but has been in conformity with the best traditions of the republic. The archipelago came to the United States as the result of a war, and it became the duty of the administration to enforce the laws there as elsewhere, to maintain the national sovereignty, and to inaugurate civil government. Military rule was quickly succeeded by the civil authorities. The people of the islands have been invited as fast as possible to participate in the work of government. We may safely trust to the future to deal with the Philippines in a manner consistent with their highest and best interests, with the duty and honor of the United States.

The application of the proceeds of public land sales to the reclamation of irrigable portions of our arid and semi-arid public domain meets my cordial approval. Through the enlightened policy thus established under the present administration, the long-deferred hopes of the struggling settlers of the great arid and semi-arid west will be realized in the upbuilding of substantial communities in places hitherto waste and comparatively unproductive.

We are gratified that sectional differences have disappeared and that a fraternal spirit pervades the people of all sections of our country. We rejoice in a national inheritance which is our common pride. Republican policies are as broad as our country's needs. They are neither sectional nor racial in their generous design. We are inspired with one high purpose, and that is, under divine guidance, to promote peace and good order, virtue and knowledge, justice, patriotism and prosperity among our countrymen and to increase to the utmost the strength and honor of the great republic.

**Victory Presaged in New York**

The members of the New York Democratic State convention yesterday proved themselves equal to the important duty with which they were charged, and measured up to the highest expectations. They nominated unanimously and with great enthusiasm a ticket which is strong in its every part, and especially in its head, and adopted a platform which, like the ticket, will command the support of every true Democrat, as well as of many independent thinking men of other parties. The result was reached after the representatives of all factions and sections had carefully counseled together and an opportunity had been afforded for the merits of every person mentioned for the gubernatorial nomination to be fully and frankly discussed. That a unanimous agreement should have been reached at last speaks volumes for the desire of all the leaders to subordinate their

own wishes to the general good of the party.  
The nominee for governor, D. Cady Herrick, has for a long while been a member of the State supreme court, a position in which he has made a high reputation. His nomination will especially appeal to the independent voters whose support is so essential to success this year. In agreeing to the nomination of Justice Herrick and in making the speech which placed his name before the convention David B. Hill showed his desire for the success of the Democratic National ticket in a most emphatic way. For the candidate has at times radically differed from Mr. Hill, and has not been classed among the latter's followers. It was freely predicted that Hill would repeat the performance of Odell in the Republican State convention and force the nomination of a candidate known to be devoted to himself regardless of the effect upon the Democratic National ticket. But the outcome has shown these prophecies were unfounded. The candidate will be strong in rural New York, from which section he hails, and at the same time he is assured of the united support of the Democracy of New York City. Both the Tammany and Brooklyn wings of the latter have pledged him their support, and harmony is assured for the campaign between all factions.  
The nomination of Congressman Francis Burton Harrison of New York City, for lieutenant governor was a happy choice. He is popular with men of all parties, and will bring much strength to the ticket. The other nominees are also men of high character. It was wisely decided to keep the judiciary question out of the campaign by nominating for the court of appeals the two candidates named by the Republicans, one of whom is a Democrat. Altogether it is difficult to see how the convention could have done better, and its work is an augury of a complete and sweeping Democratic success in the Empire State in November.—Pittsburg Post.

**Roosevelt "Prosperity."**

What Roosevelt said in his letter of acceptance relative to "prosperity" is partially true. What he said of the advancement of the United States is partially true, and what he said of the general development of the Nation is partially true. In fact what he said is largely true, but what he said about his being solely responsible for this progress is not true. His majestic wand may work wonders in his own imagination but when it comes to the hostile and every day "get there" of the farmer and the toiler and the people generally, Roosevelt is a mere spectator. He has not made them more prosperous than they would have been without him, and the truth is the nation and the people thereof have not been as prosperous as they would have been without him. He has been a greater friend of trusts and monopolies which were detrimental to the people than he has of the people. To expose all Mr. Roosevelt's perversions of the truth would require a commentary as long as the letter of acceptance itself. The conservative Boston Herald well says: "It would be too severe a criticism to say that there is not a subject touched upon by Mr. Roosevelt in this long, artfully wrought delirium which is treated candidly and fairly. In advocacy and in opposition he is equally unjust."

H. B. Martin, national secretary of the American Anti-Trust League, has sent a letter to President Roosevelt bitterly attacking his attitude toward the trusts and flattery against him of breaking his word.

Mr. Martin reminds Mr. Roosevelt that counsel for the Anti-Trust League repeatedly urged him in 1901, 1902, 1903 and 1904 to prosecute half a dozen of the oldest, most powerful and most notorious offenders against the Anti-Trust law, and says:

"You will remember that after we had furnished, even personally handed to you at the White House, positive documentary convicting proofs of the guilt of these offenders, that both yourself and your attorney general made definite and positive promises, that you would take up these cases. You will also remember how both yourself and your Attorney General have brazenly broken your words and failed to keep your promises in those cases."

**Where Will He Get It?**

(New York World.)  
The question how President Roosevelt will get money from for his ambitious schemes of Western Hemisphere expansion and further army and navy increase is far from answered by the Government's figures of August imports.  
These show an increase from 1902 of some nine millions in value. But the revenues gain nothing, as will be seen in this classification:  
August imports.....1902.  
Free of duty.....\$28,673,894  
Dutiable.....50,245,385  
August imports.....1903.  
Free of duty.....\$35,150,329  
Dutiable.....46,918,923  
August imports.....1904.  
Free of duty.....\$41,163,477  
Dutiable.....46,318,169  
The dutiable goods that got past the Dingley tariff wall were actually worth less last month than in either 1902 or 1903. And the same decline has been noted for some months.  
But expenditures mount daily. August and July showed a deficit of \$24,000,000—\$12,000,000 of which was for increased army and navy cost, although these two items alone had in seven years risen from \$32,000,000 to \$217,000,000.  
Mr. Roosevelt promises if elected to go on as he has done, still piling up vaster and vaster war budgets.  
But where will he get the money? Will he ask Congress to reimpose the Spanish war taxes—and to seek other new revenue sources, since these alone would probably not suffice? Or will he run the nation in debt for "current" expenses?

**ON HIMSELF**

The Doctor Operated to Prevent Death by Blood Poisoning Till He Fell Back Exhausted.

Cumberland, Md., Sept. 22—Dr. C. H. Fisher, in charge of the medical and surgical service of the Washash railway hospital at Little Orleans, opposite this point, performed the unusual feat of operating upon himself for blood poisoning yesterday.  
For nearly a week Dr. Fisher has been suffering a violent infection of the left foot. He arranged to go to Washington for surgical attention, but was prevented by an accident to one of the Washash men. Seeing that delay was becoming dangerous and that he was in a fair way to lose his foot and perhaps his life, the infection extending rapidly as far as the knee, he operated upon himself with the assistance of his hospital nurses in the operating room.  
The plucky surgeon cut from the instep to the toes down to the tendons and bone without an anesthetic, scraping and gouging among the diseased tissues, suffering agony for nearly a half hour of this work, till he fell back exhausted. He is in a fair way to recovery.

### Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## SILICA COMPANY

In Which Newark Men are Interested Will Start Business at Black Run Soon.

Clarence A. Hill and Samuel J. Pruden of Canton, O., have been in the city for the past week at the Hotel Seiler in the interest of the National Silica company. Messrs. Hill and Pruden are the chief promoters of one of the finest silica plants in Ohio, which will be located at Black Run. They have under lease a large territory where the rock tests from 60 to 99.9 per cent pure silica. The demand for a good quality of silica is increasing every day. The demand is much larger than the supply. The proposed plant has a capacity of one car per hour. They have placed their order for the machinery and are now negotiating for their lumber and railroad track.

They report everything going on in the most satisfactory manner. A number of Newark business men are becoming interested in the enterprise and will represent a considerable part of the company. One needs only to visit their land and see the large quantities of almost pure white rock to be convinced of the great value of this new plant. It is the universal decision of all who examine the land that it is the purest and whitest they ever saw. The nearness of this territory will prove a great blessing to the Ohio glass plants.

## MR. KITZMILLER

Was the Guest of Honor at a Dinner Party Given by Squire J. R. Atcherley.

One of the social events of the week was a very delightful reunion of some of the old veterans of Company H of the 31st regiment, Ohio Volunteers of the Civil war given by Mr. James R. Atcherley at his home on North Fourth street, on Wednesday evening, in honor of Mr. Edward Kitzmiller, of Pittsburg, who was a member of the regiment.

An elegant six o'clock course dinner was served, and twelve persons sat down at the table and enjoyed the hospitality of the genial host. A beautiful little national flag, tied with a dainty little ribbon, was placed beside each plate. The lamps were also artistically decorated with the national colors. The table was honored by Miss Lora Smythe, who displayed her patriotism and love for the old soldiers by serving the table, decorated in the national colors. She was assisted by her mother, Mrs. B. G. Smythe. The following persons, twelve in number, composed the jolly party: The host, Mr. J. R. Atcherley, the honored guest, Mr. Edward A. Kitzmiller, Judge Jonathan Reese, B. G. Smythe, Dr. C. P. King, Anson B. White, Amos H. Brice, James H. Smith, Allen W. Ball, A. A. Stasel, David Barrick and Dr. J. W. Alexander. An hour or more was spent around the festal board, and many reminiscences of the late war were discussed, and many old time jokes as well as sallies of wit and humor were indulged in by the happy party. The delightful Havana cigar was brought into requisition and a social "smoker" and an informal chat were indulged in for several hours.

Mr. Kitzmiller, at the close, made some very happy remarks, stating that the occasion was one of the pleasantest of his life.

## AMUSEMENTS

The Auditorium will have an unusual engagement commencing this evening. At that time Kirk Brown a handsome and dashing young actor, will present a series of remarkable plays. The list includes "The Man Who Dared," "Cumberland Gap," "Under the Red Robe," and "Prince Otto." Productions of this kind are decidedly rare in these days of sensation and blood and thunder and should serve to make the engagement here particularly popular.

### JEFFERSON IN RIP VAN WINKLE.

## KILL SENSE OF PAIN BY USE OF A BLUE LIGHT

Two Professors of Geneva, Switzerland, Have Discovered New Anaesthetic That May Revolutionize Practice of Dentistry.

Washington, Sept. 22.—After three years of patient research, two professors of Geneva, Switzerland, have discovered a new anesthetic which promises to revolutionize the practice of dentistry. In reporting this to the State Department, Consul Liefeld, at Freiburg, Germany, states that finding that the nervous system was influenced by colored light the profes-

sors soon perceived after experimenting with each hue that blue had an extraordinary soothing effect on the nerves. The consul says that a tooth may be painlessly extracted with none of the after effects on the system by shutting up the patient in a dark room and exposing his eyes to a blue light of 16-candle power for three minutes, causing him to lose all sense of pain, although at the same time retaining his senses.

### ROUTED

By a Cannon Firecracker, Which Was Thrown on His Head, Was the Burglar.

Mt. Vernon, O., Sept. 22.—Frying to capture a burglar with a cannon firecracker was the exciting experience of Isaac Taylor and Charles Taylor at their home here. Mr. Taylor was awakened by the burglar, and he told his son Charles to get the shotgun. As the son was slow in finding the gun the father quickly got a cannon firecracker and dropped it out of an upper story window on the burglar's head.

The robber let out a terrible yell as the cracker exploded and made a hasty retreat in the darkness with both Taylors after him. The robber escaped and the chase was given up. Blood stains on the grass near the house indicate that the would-be burglar was injured by the explosion of the cracker.

### FAIR QUARTET

Made a Raid on the Room in Which the Youths of the Village Were Gambling.

Laporte, Ind., Sept. 22.—Rolling Prairie, this county, is agog with excitement over the daring act of four young women, the Misses Hester and Elsie Worden, Miss Boland and Miss Connors, who broke down the doors of a room where the young men of the village were gambling, for the purpose of bringing about their reformation.

The young men will be socially as tracked if they continue to gamble and drink.

The young women settled the damages incurred in their raid, and the crusade will be prosecuted until the evil is abated.

They declare that no barriers can be raised that will prevent the work which they propose to accomplish.

### POLICE

About 9 o'clock a stray dog ran into the Hurbaut transfer barn on South Third street carrying something in his mouth. Nothing was thought of the occurrence until some one noticed that the dog was carrying a human foetus. Coroner C. F. Legge was notified by Officer William Howard and he is now investigating the case with Chief of Police Sheridan.

### A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newitt's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ and of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Everything looks new. Have you seen the new truant officer? Oh, yes! and the new janitor. He's right there with the goods, even if he did have to sprint a couple of mornings in order to get there in time to ring the first bell.

Two of the superintendent's former pupils of Etna, the Misses Emma and Joanna Miller, together with their sister, Miss Freda, were high school visitors one day last week.

Eliza Davis and Winnie Blade of the intermediate room are on the sick list this week.

There's Sagar Loaf (that's a sweet name) and Miss Nellie Stone has been duly installed as teacher.

Harvey Orr is again teaching the "young idea how to shoot" and some of the "young shoots" how to behave out in the Cunningham district.

The Lakeside school is still without a teacher.

The Union township Teachers' Reading Circle will meet Friday night at the high school room.

### A CASE OF IT.

Many More Like It in Newark.

The following case is but one of many similar occurring daily in Newark. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such a conclusive evidence.

Mrs. George Graff of 25 Spencer street says: "I had a terrible back which successfully resisted all efforts in the way of medicines and poultices to relieve it. It was just across the loins where the greatest strain falls so that I could not get up when I was down. I awakened in the morning scarcely able to shift my body. As I moved about at my household work I was often in actual torture. For three months I suffered all the time until one day a neighbor gave me a few doses of Logan's Kidney Pills. I took them and the benefit was so apparent I sent down to Grayton's drug store and procured a box. Before very long I discarded the plasters, the kidney secretions looked clear and natural and had not a pain in my head and back."

of the city, that the hats should be made by union labor, which bars the Knox Hat Manufacturing company from accepting a contract which had been awarded to it, Robert J. McFarland, treasurer and general manager of the company, announces that \$100,000 would be spent to defeat the national Democratic ticket, and that all Knox hat agents throughout the country, and non-unionists generally, would be appealed to strongly to aid in the defeat of Judge Parker.

"The campaign will be begun at once," asserted Mr. McFarland, "and will be carried to every state in the country. No power on earth can stop us. So adjust hat Tammany Hall, been to us that we shall have all of our agents appeal to their friends, who are not members of trades unions, to fight the Democratic ticket. If Tammany Hall is a type of Democracy, what we are now having in New York would be duplicated in the National government if the Democratic ticket were to be successful."

Mr. McFarland's complaint against the Democratic party is based upon the fact that, according to his assertions, the United Hatters' Union of America prevailed upon Tammany to have a clause inserted in the helmet contract making it obligatory that the work should be done by "what is commonly called union labor," with a union label attached to each completed helmet.

"After our proposal to supply 7,500 helmets at \$1.90 each had been approved," said Mr. McFarland, "we were surprised to have our representative, whom we sent to have the order confirmed, presented with an agreement which contained several clauses favorable to trades unions and discriminating against independent labor. The hat had to be made by 'what is commonly known as union labor.' We were also notified that each hat must contain the label of a trade organization, though the invitation we had received to put in a sample and estimate had contained no mention of union labor or labels. Otherwise we would not have attempted to secure the contract."

"The fact is that the whole matter had been held open for several weeks, while the trades unions brought pressure to bear on Tammany Hall to have these clauses inserted in a bond to be given on placing such contracts, so that the Knox Hat Manufacturing Company, which is not affiliated with the United Hatters of North America, could not get the contract. We have customers in every city and state in the country, many of whom are stockholders in this company. I shall communicate with them and ask them to do all in their power to defeat the Democratic ticket and to aid the Republicans."

"We shall have the co-operation of the Citizen Alliance and Anti-Bovocet Associations all over the country in the movement. I have nothing against Parker personally, but because of the grave injustice that has been done to us by the local Democratic organization the national ticket must suffer."

## IN MONTANA

Labor and Populist Conventions Indorsed Nominees of the Democratic State Ticket.

Helena, Mont., Sept. 22.—The Labor and Populist conventions adjourned after having indorsed the nominees on the Democratic state ticket. The Populists indorsed the Populist electors on the national ticket and the labor convention did not indorse or nominate any presidential electors. The labor men had an interview with Governor Toole, who promised them that if they would indorse every man on the Democratic ticket he would pledge himself not to accept an election for United States senator, but he would not give the pledge unless the whole ticket was indorsed. The labor committee reported to the convention in favor of such action and the report was adopted.

## MIRACULOUS

ESCAPE FROM DEATH OF TWO YOUNG MEN.

Train Struck Their Buggy but Both Occupants Escaped With Slight Injuries.

Utica, O., Sept. 22.—Today's Herald says: Fred Headington, 19, and Otis Higgins, 23, both living near Centerburg, had a miraculous escape from death about 9:30 o'clock last evening at the crossing of the C. A. & C. one and a half miles east of Centerburg.

"They were fairly on the track before they saw the train or realized their predicament. A second later the locomotive hit the rig, killing the horse instantly and throwing the buggy and occupants about 50 yards.

When found Headington was lying beneath the wrecked buggy. Both boys were placed aboard the train, which was stopped as quickly as possible, and taken to Centerburg, from which place they were removed to their homes. Young Higgins was but little injured in the accident, but his companion was terribly bruised and sprained, being unable to walk today without assistance.

"Help the boys beat old Carnegie," replied "Mother Jones." "We will beat him just as sure as we beat old Baer out there in Pennsylvania."

Jersey City, N. J., Sept. 22.—The government yacht Sylph with President Roosevelt on board, arrived here at 1:15 this afternoon.

### New York Democratic

## CHICAGO

Police Arrest Four Men Who Are Accused of Murder of Hans Peterson.

Chicago, Sept. 22.—The police are now positive they have in their custody the four men who murdered Hans Peterson and shot down his porter, Wm. Poter, in Peterson's cigar store at Lake and Robey streets. Following the confession of John R. Smith, who had been betrayed into the hands of the police by a jealous woman, John, alias "Lefty" Leonard, and Harry Brown were arrested today as they were endeavoring to leave the city on a freight train. With Joseph Briggs they complete the band of four alleged desperadoes who, the police declare, committed the Peterson murder.

### KILLED HIS SON

With a Corn Cutter—Another Murder a Few Miles Distant.

Parkersburg, W. Va., Sept. 22.—In Roane county two murders were committed within a few hours of each other. James Flinner, aged 55 years, was cutting corn with his son, Worth, when a quarrel arose. They attacked each other with their corn cutters. The son was killed.

The other murder occurred at about the same time in a place only a few miles distant. Jesse Ferrell and Tully Dilworth, farmers near Looneyville, fought over live stock. Dilworth died. Ferrell is in jail.

## CUPID IS ARMY'S FOE; SERVICE IS "OVERWED"

Adjutant General Corbin Sees Danger to the Army Officers in Too Many Marriages.

Washington, Sept. 22.—Cupid threatens to demoralize the army of the United States more effectively than it ever was demoralized by armed foes. This is the opinion of Adjutant General Henry C. Corbin, commanding the Atlantic division and department of the East. His report on the subject was made public by the War Department.

"The party is overmarried," the report says. "Marriage of army officers who have made no proper provision for assuming the responsibility is harmful both to the army and the officers. I am firmly of the opinion that no officer should enter the marriage relation without first getting permission from the War Department."

### The Fiction She Reads.

"But, my dear, aren't you going to take along some summer fiction to read while you are away in the country?"

"Oh, no. I shall depend on your letters from home."

### Fashion's Echoes.

Ostrich tips rather than the plume are in the ascendant.

No gown is quite correct and up to date without the little lingerie finish.

Self-triumphing—tucks, plaits, puffs and shirrs—have great vogue.

A black silk or satin tuxedo facing is distinctly smart on colored and white waisteoats.

Extremely long wristed gloves are provided for dressy gowns with short or elbow sleeves.

The vogue of imitation jewels is unmistakable, and in the majority of cases women who wear simulated stones do not hesitate to acknowledge the fact.

The shops are showing many plaid designs in men's golf shirts.

The lack of golf gloves are of champagne, with dogskin binding, made with knuckle holes and the opening and button on top of the wrist, while the dogskin palms have a number of small perforations to admit the air.

When flowers are worn on the bodice of day gowns or suits they should be tucked into the top of a very high grille and on the left side, where they show to advantage and add a touch of jauntness.

## FIERCE GALE

Sweeps North Atlantic—A Schooner With Five Men Lost—A Poor Catch of Cod.

St. Johns, N. S., Sept. 22.—A fierce gale has swept this region. The schooner Amy Louise of St. Johns, the schooner Bobs of Parrsboro, N. S., and the schooner Elinor of Plymouth have been driven ashore. The schooner Ripple of Quebec has been lost with five men. The Labrador mail steamer is delayed. It is feared that last week's gale has devastated the Labrador seaboard. Reports from St. Pierre show that gales have severely damaged the French fishing fleet. The catch of cod is the poorest in 10 years.

His Third Nomination: Denver, Sept. 22.—Alva A. Adams of Pueblo was for a third time nominated for governor by Colorado Democrats. The platform adopted affirms allegiance to the national platform adopted at St. Louis and to the nominees of that convention. The Republican state administration is accused of violating every safeguard guaranteed to the individual by the bill of rights.

Fire In Her Bunkers. Norfolk, Va., Sept. 22.—Fire broke out in the hold of the steamship Minnesota of the Great Northern line while the vessel was loading coal for her bunkers at Lambert's Point piers here, but the flames were extinguished with only trifling loss. The fire was caused by spontaneous combustion in a lot of coal that had been loaded at New London.

In Hearts of Papier Mache

By TROY ALLISON

Copyright, 1934, by Troy Allison

The papier mache dog on top of the rosewood writing desk glared at the rabbit compounded of the same fiber and tried to growl.

"It's contrary to the laws of nature for you to perk yourself right under my nose that way," he complained.

The rabbit made an effort to flick one ear and disdained to answer.

"In real life you would take precious good care to keep out of my reach," the canine growl continued.

"Oh, I really don't know," the rabbit giggled; "you would be nothing more than a floppy, overgrown puppy. I don't know that it would take any great amount of ambling to keep out of your way." She held her one fore paw with the limp grace which she had often admired in her distant cousin, the kangaroo.

"I see you are a cripple also," she smirked, with a polite interest. "You have lost a portion of your hind leg. Our present proximity is probably due to our discrepancies."

"I don't know how you make that out," he snorted, with masculine obtuseness.

"That's easy enough," she sniffed. "My right side is really the handsome-

my memory it ran something like this: "Be quick like the rabbit. If you see a trick, grab it."

"How atrocious!" he sneered in disgust. "I'm glad I never tried to write poetry, but I'm sure I could have beaten that."

"Oh, I dare say yours would all be mere doggerel," she giggled.

He tried to swell with indignation and grieved that he was not made of rubber or of some substance that would lend itself to his mood.

"I suppose you don't know how their affair ended."

"Do tell me," she entreated. "The parlor maid arranged my head in such a position that I was never able to see anything except the ceiling."

"That's a trial," he conceded. "My head turns, too, but I was placed where I could see everything going on. I think she really places me here to guard the contents of her desk. My eyes are turned at the exact angle necessary to read every letter she writes or every one that she takes out to answer."

"Do go on and tell me what was the cause of trouble with the sweet dears," said the rabbit impatiently.

He chewed his real feather muzzle reflectively. "It was as sudden as a whirlwind," he finally narrated. "He wrote her a note telling her he couldn't keep an engagement to take her to the theater one night. She happened to be on the car the same night and saw him a few seats ahead of her with another girl. Gee! I never read such a scorching letter as the one she wrote him that night. She sat up till 11 o'clock to finish it. I just knew it was going to make trouble. I spent the whole night wishing I could get to it and chew it up, for it was a positive certainty that it would cause trouble."

"And well it might! Men were always perfidious creatures!" hissed the rabbit, winking an angry tear from one glass eye and a sympathetic shower from the other.

"Now, you hold on," the dog advised loftily. "Females always would jump at conclusions. Wait till you hear it all. I never saw any one so unhappy as she was. She positively wore the polish off this desk weeping on it."

"To think that her happiness should have been destroyed at one blow by such villainy!" And the small rabbit mouth quivered so she could scarcely hold the carrot.

"Now, there you go again," he growled. "Just wait till I finish this story. After he had stayed away for weeks he came walking in one day and said in a very dignified manner that he insisted upon her hearing his explanation, because he didn't care for any one to consider him a dishonorable cad."

The rabbit's eyes bulged with excited interest, and she intimated with a breathless manner that she wished him to continue.

"The dog enjoyed his auditor's suspense. "There was the simplest kind of solution to the affair. A cousin of his had passed through the city unexpectedly, and he had been obliged to take her across on the ferry to make connection with her train. I had confidence in him all along, and you ought to have seen her smile of rapture when she heard his explanation. She was standing right beside this desk, and in her nervousness her fingers fell upon me with a tight clutch. He saw how she felt, and he did just what any man would have done. He walked right over and took her in his arms. She forgot to put me down, so I got crushed against his breast. That's the way I lost my leg, but 'twas well worth it," he sighed. "That has been months ago."

"The poor, sweet dears!" the rabbit breathed sentimentally. "I'm so glad they lived happily ever afterward," and screwed her head over on his shoulder in satisfied comfort.

When the maid dusted the desk next morning she grinned with appreciation.

"They are the most unnatural creatures," she said, twisting their heads until they gazed into each other's eyes as if there had never in the world been a feud between dog and rabbit. Then she took them and started out of the room.

"She said her baby might look to play with them."

A Bit of Chalk.

Did you ever microscopically examine a tiny bit of powder scraped from a piece of common chalk? Not one person in ten thousand has the least idea of the number and curious forms of the minute shells that can thus be brought into plain view. The largest of these shells is not more than the one three-thousandths of an inch in length, yet they are as perfect as the pearly titans of the beach that are large enough to hold a half gallon of water and that when empty roar like a cyclone. Some are shaped like squids and cuttlefishes, others like "sand dollars" or sea urchins, but by far the larger majority will remind you of seashells that you have seen at one time or another. One very common form of these infinitesimal structures is shaped exactly like the common conch shell, but it has been estimated that at the least calculation it is 2,000,000 times smaller.

A careful examination of different samples of any one specimen of chalk will generally show that there are from 300 to 500 species of minute shells in every conceivable shape and form, the very minutest specks among them being as curiously and wondrously made as those of larger caliber.

A Warning.

"Be mine!" he cried in a voice surcharged with anguish. "If you refuse, I shall die!"

That was forty years ago, and the heartless girl refused him. Yesterday he died. Girls, beware!

"I had a lovely poem attached to me when I was presented to her." The rabbit showed some symptoms of pride in the reminiscence. "My mind was never very retentive, but to the best of

est, but after the parlor maid broke off one of my fore paws she got to putting that side next to the wall. I observe that you are wounded on the left side, and that it is your left side that is turned toward the wall." She peered round him with her glass bead eye.

"There may be something in your theory," he admitted. "When we were sound in body we had our best sides to the world and our backs to each other. I never knew you existed even."

"What a benighted state of ignorance for your mind to be in! Do you belong to her?"

"Most assuredly I do," in his most pompous manner. "She has had me for months. She told him she never would part with me. I will never forget how pleased she was the night she drew me from the grab bag at the fair. It was the day after they became engaged. I really believed they were the happiest people I ever saw."

"Tell me all about it," she coaxed. "I delight in romances."

"Are you hers, too?" he questioned suspiciously.

"Oh, that's all right! It's perfectly proper to tell me," she assured him. "I belong to her also, so you see it would all be in the family. If you hadn't been sitting with your back towards me until you lamed your leg you would have known that she had only been engaged four months when she got me."

"You don't say! And I never knew it!" he exclaimed in surprise.

"She won me at a eucheire party, the rabbit continued, taking a nibble at the highly painted papier mache carrot that the manufacturer had thoughtfully placed in her mouth. "It was the booby prize, you know."

"Yes, I'm sure I should have guessed it," permitting his masculine jealousy to render him ungracious.

"You needn't be so snappy," said the rabbit, taking another bite of carrot, and wondering if it would have tasted better painted with yellow ochre instead of Naples yellow.

"I'm surprised that she didn't win the first prize," he muttered in an abstracted way that she probably mistook for a query, for she answered readily.

"She might have if she hadn't been so much in love. Every time she happened to be at a table playing against him she would simply throw away tricks. I was sitting on the parlor mantel, and I distinctly saw the rest of the people wink at each other."

"Well, I suppose people will be foolish at times." He gave a condescending sigh.

"I had a lovely poem attached to me when I was presented to her." The rabbit showed some symptoms of pride in the reminiscence. "My mind was never very retentive, but to the best of

## CEDAR CAMP

HAD A JOLLY SOCIAL SESSION WEDNESDAY NIGHT.

Over 300 Woodmen Present to Enjoy the Program—Local Camp is Still Growing.

Cedar Camp, No. 4727, Modern Woodmen of America, held one of the biggest meetings in the history of the Camp at their spacious headquarters on West Main street on Wednesday evening.

Over three hundred Woodmen were present and a good time was had in listening to the flow of oratory and music and discussing the appetizing banquet that followed.

Venerable Counsel O. B. Young called the meeting to order and presided very gracefully as master of ceremonies over the opening of the meeting, finally introducing Attorney L. C. Russell as toastmaster. Mr. Russell filled the position very acceptably giving each performance on the program a happy introduction.

Following is the program of exercises which was thoroughly enjoyed by all:

Instrumental music, G. J. Friel. Address, B. F. McDonald. Instrumental music, Quartette. Address, W. D. Fulton. Address, E. M. P. Brister. Song, Will Downey. Address, C. L. Flory. Address, Dr. Jackson. Vocal music, Quartette. Song, Will Downey. Vocal music, Quartette. Address, D. M. Keller. Music, banjo and zither, duet. Address, J. M. Farmer. Address, J. M. Lambert.

At the conclusion of the literary program all present sat down to the enjoyment of the refreshments consisting of cake, fruit, lemonade and ice cream, at the conclusion of which cigars were passed.

Toastmaster Russell created quite a diversion by stating that he as toastmaster and chairman of the Republican County Committee, would introduce Mr. J. M. Farmer, Democratic candidate for Recorder, as one of the speakers of the evening.

Mr. B. F. McDonald, set to be outdone in courtesy, said that he as chairman of the Democratic County Committee, would also introduce Mr. J. M. Lambert, Republican candidate for County Commissioner, as one of the speakers of the evening.

The entire program was very enjoyable, the music being fine and the addresses excellent and to the point.

Cedar Camp, as is well known, is the banner camp of the state. It has now reached a membership of nearly 1100, and purposes to reach the high-water mark of 1200 before the end of the year. With such hustlers in the ranks as Rees R. Jones, John P. Lamb, N. C. Sherburne, W. R. Brandriff, Earl Murphy, B. F. McDonald and many others, such a result is doubtless attainable.

## VETERANS

ARE HOLDING THEIR REUNION IN HEBRON.

Town Gaily Decorated in Honor of the Event—Officers Elected by the 31st Regiment.

Hebron, O., Sept. 22.—About seventy-five veterans and many visitors are here today attending the reunion of the Thirty-first Ohio regiment. The town is gaily decorated in the visitors honor.

Up to noon today 62 of the soldiers had registered.

The meeting was called to order by F. F. Stewart of Evanston, Ill., and the following named officers were elected: President, C. L. Williams of Columbus; vice presidents, Company A, G. W. Gordon; E. Amos Baird; C. Levi Ross; D. James Stotter; E. Myron Cady; F. Jerry Turner; G. G. T. Smith; H. Spencer Holtsbury, Hebron; J. W. W. McDonald; K. James C. Walker; secretary and treasurer for life, M. C. McNeal.

The veterans decided to hold their next meeting at Roseville. At the Odd Fellows hall this afternoon a suitable program was carried out, the principal address being delivered by General Axline of Columbus, Ohio.

## A Fastidious Woman

Fastidiousness in dress is the mark of refinement in a woman. Style and extreme care as opposed to overdoing and overdressing never carries with it the mark of the lady.

Our suits please the fastidious woman because they are stylish without approaching an extreme, natty without being gashy, good without being extravagant.

No matter how very particular you may be in matters of dress, a pleasing surprise awaits you in our cloak and suit department. We are showing garments that have just the right style, tone, and that becoming neatness so essential to the well dressed woman's appearance.

ASSOCIATION MEETS IN WELSH HILLS CHURCH.

Representatives from a Number of Churches Attend Two Day Meeting Near Granville.

Granville, O., Sept. 22.—The Columbus Baptist Association in which the churches of Alexandria, Berlin, Westerville, First, Hildreth, Memorial, Russell street and Fifth avenue of Columbus, Delaware, Granville, Jersey, Johnstown, Liberty, McKean, Sunbury and Welsh Hills, are represented, convened this morning at the Welsh Hills Baptist church north of Granville. All of the churches are represented at the meeting, a number coming from Columbus this morning.

The program opened with a praise service by Rev. Bunyan Spencer of Granville, followed by an address by the president, Judge J. M. Swartz, of Newark, and the appointment of committees. Rev. A. E. Isaac of Columbus, was unable to be present this morning to conduct the service at 10 o'clock, to which he had been assigned. Dr. E. W. Hunt, president of Denison university, delivered the annual sermon.

The afternoon and evening program and the three sessions tomorrow are to be carried out according to the program already published in the Advocate.

## NEIGHBORS

CLAIM AGED KEHRER SISTERS DID NOT SUICIDE.

Advance Theory of Murder by Robbers—Supposed to Have Money in the House.

Bucyrus, O., Sept. 22.—The citizens of New Winchester are greatly worked up over the shocking death of the Kehrer sisters, who were found beside the Ohio Central tracks just north of that village. They do not accept the theory of suicide, claiming evidence that it was murder, and refuse to countenance the suicide idea until a more thorough investigation is made. The officials have been asked to look into the matter and today it will be settled.

The people of the little village claim it was thought that the sisters had considerable money in the house. The sisters did not keep their money in a bank, but preferred to hide it about the house. Men have been found at a camp not far away, where a gang of road workmen stay, who claim to have seen several strange men about the neighborhood after 10 o'clock Monday. The strangers were walking along the railroad track, which passed by the lonely little farm house.

It is also said that a man's necktie was found between the house and the place where the bodies were found. A search of the house is said to have shown evidences of preparation for the morning meal. The villagers think the women were murdered and carried to the place in the quilts that were found nearby and that they were laid upon the track to cover up the crime. The fact that the legs of one woman were cut off is pointed to as an evidence that her legs were laid across the rail, which is not a position a would-be suicide would take. The second woman was not mutilated in the least, which, it is claimed, would have been impossible if the body had been struck by the train at all.

Only a few dollars were found in the house when it was searched. A thorough investigation will be made to clear up the matter.

## M. L. WILSON

Newark Man, Writes the Life of Mary Hartwell Catherwood—Volume Just Issued.

The editors of the Advocate are under obligations to Mr. M. L. Wilson of this city for handsomely bound copies of the biography of Mary Hartwell Catherwood, the authoress, which was written by himself.

The volume gives a concise history of Mrs. Catherwood's useful life, embodying 89 pages, and is well worth reading, as the subject was a Licking county woman, who will be well remembered by the older citizens of Newark.

Mrs. Catherwood, the author of "Lazarre" and other stories, was born at Luray, west of Hebron, and attended school at Granville. Mr. Wilson has presented the story of her life in attractive form and his book will undoubtedly meet with the success it deserves.

## RECITAL

At St. Paul's Lutheran Church This Evening—Program is Well Worth Hearing.

Miss DeMilla, who appears in the organ recital at St. Paul's Lutheran church tonight, is a harpist of more than ordinary ability. Of her the press universally declares: "She in-

fuses her very soul into the rendition and lends a charm and power to her unequalled technique. In her vocal number she discovers a voice of rare quality." Miss Hertenstein, the cellist who played so acceptably at the opening of the King avenue M. E. church, will play the obligato for Mr. Hall in "O Divine Redeemer," from Gounod. ## PLEADED

For Permission to Carry a Revolver—Ohio Woman Says She Fears Her Husband.

St. Louis, Mo., Sept. 22.—Fearing the vengeance of an irate husband who followed her from Versailles, Ohio, Mrs. Mary E. Carson, who is stopping with her brother, George Polkinghorne, at 4041A Cozzen's avenue, requested Chief of Police Kiely to permit her brother to carry a revolver with which to kill her husband in the event of his making an attempt to carry out his threats of vengeance for her alleged desertion.

The Chief denied her request, but she was assured that her husband would be arrested if he appeared to annoy her. The whereabouts in St. Louis of the husband, Lawrence Aaron Carson, is at present unknown, and the police are making diligent efforts to locate him.

Mrs. Carson says she left her husband two weeks ago and came to St. Louis to live with her brother.

Carson heard of his wife's intention to apply for a divorce and followed her to St. Louis, she says.

To the police Mrs. Carson stated that she was in constant fear and was afraid to leave her brother's home.

## PLAYFUL MONKEY

Swallowed a Big Diamond and the Animal Was Killed So Henry Could Recover the Gem.

St. Louis, Mo., Sept. 22.—Martin Henry, retired brewer and Republican politician, was made the victim of a playful monkey, the animal losing its life as a result of its tricks.

A \$1,000 diamond stud which adorned Henry's shirt front attracted the monkey while Henry was watching a cage filled with animals at Avenue and Vine streets.

While Henry was busy feeding peanuts to the other animals the monkey nipped the diamond stud and swallowed it. Henry bought the animal and had it killed, recovering the gem in the animal's stomach.

## FLY BITE

WILL PROBABLY CAUSE DEATH OF LOGAN COUNTY MAN.

Blood Poisoning Sets in and Leg Will be Amputated in Columbus at Once.

Lancaster, O., Sept. 22.—Near death's door from the results of a bite of a fly was John Polin, who passed through this city yesterday en route from his home near the Rock house in Logan county to the Protestant hospital in Columbus.

Ten days ago at his home near the Rock house in Hocking county he was bitten on the large toe of his left foot by a fly. The pain was slight and lasted but a few moments. After three days it bothered him some until Sunday the foot began to swell, and within two hours the foot and leg as far up as the knee were swollen to almost twice their natural size. The flesh turned black and Tuesday morning the leg burst in six different places and a corruption of green color ran out. Closer examination showed that the bone had rotted away in two places. The pain was intense, but no assistance could be had for some time as the only near neighbors were two miles away. Finally help was secured and he was put aboard the train for Columbus. The limb will be amputated, but it is hardly possible that he will survive the operation.

Buy a fine building lot from the gentlemen who have done so much to promote Newark's interests. The value of lots in Wells & Miller's Park Addition will double in the next two years. 9-20-5t

## CHILDREN

In England Christened With Japanese Names, and Ministers Object Seriously.

London, Sept. 22.—London ministers of the Gospel are in despair because of the number of parents who insist on showing their admiration of Japan by christening their children with Japanese names. During the last few weeks hundreds of children have been given as middle names Kuroki, Kamimura, Togo Oyama and Fukushima.

A prominent minister said: "I have repeatedly had the greatest difficulty in persuading fathers from giving their children these heathen names. Not that I have any personal objection to the names themselves, but too often parents unwisely saddle their children with names which in after life becomes distasteful, and, like a good many other ministers, I do not think it right to give Christian children names of men who do not believe in the Christian religion, even though they be heroes and allies of this country."

In spite of the efforts of the ministers, however, many parents insist in christening their boys Oku Kuroki because they think the initials O. K. will prove lucky.
